ABHIN V

Frontend Developer | Next.js · React.js · TypeScript · Tailwind CSS

abhinpradeepan@gmail.com | +91 7902314666 | Kannur, Kerala, India | linkedin.com/in/abhin-v-974252215 | github.com/abhin333

PROFESSIONAL SUMMARY

Frontend Developer with 1+ year of experience building responsive, cross-browser-compatible websites and web applications using Next.js, React.js, TypeScript, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS and Redux. Skilled in converting UI/UX designs and wireframes into responsive, pixel-perfect interfaces, integrating RESTful APIs with validation and error handling to deliver dynamic, data-driven experiences, and debugging and optimizing applications for speed and usability. Delivered client projects including government and tourism portals, working closely with designers, backend developers and QA teams in Agile environments.

TECHNICAL SKILLS

Front-End: Next.js (SSR), React.js, HTML5, CSS3, JavaScript (ES6+), TypeScript, Tailwind CSS, Bootstrap, Redux

APIs and Data: REST API Integration, Axios, API Request and Response Handling, Data Validation, Error Handling, Firebase (real-time), Payload CMS

Design to Code: UI/UX Implementation, Wireframe and Prototype Conversion, Responsive Design, Mobile-Friendly Design, Reusable Components, Design Patterns

Quality and Performance: Debugging, Performance Optimization, Cross-Browser Compatibility, Cross-Device Testing, Defect Resolution

Back-End Familiarity: Node.js, Express.js, MongoDB

Tools and Practices: Git, GitHub, Version Control, Code Reviews, Agile/Scrum, Sprint Planning, Technical Documentation, Netlify, Deployment

PROFESSIONAL EXPERIENCE

Front-End Developer | Tiqr Labs **Oct 2024 – Dec 2025**

- Developed and maintained responsive, mobile-friendly web applications using Next.js, React.js, TypeScript and Tailwind CSS, with reusable, modular components and consistent design patterns across client projects.
- Converted UI/UX designs, wireframes and prototypes into responsive, pixel-perfect, visually consistent interfaces, and flagged technical feasibility concerns with suggested solutions during design discussions.
- Integrated front-end applications with REST APIs and backend services, handling API requests, responses, data validation and error handling to deliver dynamic, data-driven pages; built real-time features with Firebase.
- Debugged and resolved UI, functional, compatibility and performance issues; optimized rendering and bundle size to improve speed, scalability and usability.
- Managed application state with Redux across multi-page applications.
- Tested and ensured applications work across major browsers (Chrome, Safari, Firefox, Edge), screen sizes and devices.
- Collaborated with UI/UX designers, backend developers, QA engineers and stakeholders to deliver new features; supported QA testing and resolved defects found during testing cycles.
- Used Git and GitHub for version control, code reviews and pull request feedback, following established coding standards; took part in sprint planning, reviews and other Agile activities.

KEY PROJECTS

Kerala Sangeetha Nataka Academy | *Next.js, TypeScript, Payload CMS*

- Designed and developed the official web portal.

Thaliparamba Tourism TDMC | *Next.js, TypeScript, Payload CMS*

- CMS-driven tourism website with event, accommodation and booking features.

TiQR Events | *Next.js, React.js, Firebase, REST API*

- Event management platform with registration, ticketing and real-time updates.

TiQR Store | *Next.js, React.js*

- E-commerce platform with product management, cart and checkout.

Theatre and Room Management System

- Booking and scheduling system with admin dashboards and reservation management.

EDUCATION

Bachelor of Computer Applications (BCA), IGNOU
2022

- Higher Secondary (12th) and SSLC (10th) | Kerala State Syllabus
